Objective

Motivated fresher with a strong foundation in programming, AI, and IoT. Quick learner with good problem-solving skills and hands-on experience in developing real-time applications. Eager to gain practical experience and contribute effectively to the organization.

Education

P.S.R Engineering College, Sivakasi (B.E. CSE, Apr 2026) - 76%

MMM.Hr.Sec.School, Theni (HSC, May 2022) - 70%

MMM.Hr.Sec.School, Theni (SSLC, Mar 2020) - 80%

Projects

Smart Shopping Cart System

Developed an automated shopping cart using IoT and sensors, enabling real-time item detection, billing, and obstacle avoidance for efficient shopping.

Cyberbullying Detection and Reporting System

Built a web application using Machine Learning and NLP to detect and with an admin dashboard for managing reports.

Gas Cylinder Booking System

Developed a booking system using Java and Firebase, enabling users to book cylinders, track delivery status, and receive real-time updates.

Internship

Inetz tech - Data analyst (march 2026)

Worked on data analysis tasks using basic tools and techniques, with hands-on practice in cleaning datasets, creating simple visualizations, and generating reports.

E-Soft IT Solution – App Development (Jun 2025)

Interned in Android App Development. Created apps using Java and XML with attention to cross-device compatibility and UI enhancements.

Skills

Programming: Java, C/C++, Python

Web & Tools: HTML, CSS, React, Flask, Firebase

Database: SQL

Core: Machine Learning, NLP, IoT Basics

Tools: Postman, Git, Arduino IDE

Certifications

App Development Course

Data Analyst Internship
